Yogi, mystic and visionary, Sadhguru is a spiritual master with a difference. An arresting blend of profundity and pragmatism, his life and work serves as a reminder that yoga is a contemporary science, vitally relevant to our times.

Sadhguru explains we are in Dwapara Yuga, not in Kali Yuga, which relates to our position on the great calendar referenced in the Mahabharata and used by the ancients. The Yuga Cycle doctrine tells us that we are now living in the Kali Yuga; the age of darkness, when moral virtue and mental capabilities reach their lowest point in the cycle. I am an optimist and look on the bright side... the spirituality of the Earth is set to rise exponentially! There are truly better times ahead for all - let us help make that a living reality!
